YOUR SOLUTION FOR 3RD PARTY LOGISTICS

GENERAL MARITIME AGENCY HISTORY

Organized in 1981, General Maritime Agency began as a full service ocean vessel agency. Our concentration then, which remains our niche today, is the movement of over-dimensional and outsized cargo. 50 years of experience enables us to offer unique solutions for the challenges you face while transporting specialized cargo. Within the shipping industry, our team is recognized as the premier project cargo experts. Our logisticians deliver a level of service, reliability, and efficiency unmatched. Lean on our experts and discover how true "Turn Key" logistics can streamline your business.

General Maritime Agency is your solution for 3rd Party Logistics.

VESSEL AGENCY & VESSEL HUSBANDRY

General Maritime Agency will get your vessel in and out of port with the smoothest possible turn around. Our proven efficiency enables us to facilitate all vessel operations including vessel agency and husbanding functions. Our agency service meets the same high customer service and performance standards we insist upon in all our operations.

Our agents are experienced in documentation: tendering N.O.R., issuing S.O.F, on or off hire notices, undertaking bill of lading signature authority, delivery and redelivery certificates, maintaining cargo, issuing bills of lading in accordance with mates receipt and receiving reports, invoicing and collecting ocean freight charges, preparing the cargo manifest, distributing cargo related documents to destination port agents as designated by the carrier, and will present a final disbursement account within thirty days of sailing. Whether coming into port or embarking on voyage, we handle all the details for reliable, efficient vessel operations.

At General Maritime Agency, we believe in keeping things straightforward and streamlined. Renumeration for vessel agency is based on a flat agency fee per vessel call all inclusive of any overtime, auto hiring, etc. Our goal is to perform our duties in a way that exceeds your expectations.

SHIP BROKERING & FREIGHT FORWARDING

General Maritime Agency is your source for shipping your over-dimensional and specialized cargo all over the world. Our team is skilled in the intricacies of marine insurance, import/export requirements, and documentation. We have agents on the ground globally to facilitate your cargo in and out of port efficiently.

We make transporting even the most challenging freight simple with our door-to-door and port-to-port turn key services. Domestic or international, standard or over-dimensional, let us handle the logistics of getting your cargo safely to its destination.

Our familiarity with global transportation, our understanding of the challenges inherent in handling specialized cargo, and our flexibility in adapting to ever changing conditions help us deliver your freight with unparalleled customer service.

Our familiarity with the many facets of packaging, routing, and transporting specialized cargo across oceans and continents around the globe gives us an edge. Knowing all the ins and outs means increased efficiency and added value. Tell us what you need... we know that we can handle it.

LAND & OCEAN LOGISTICS

General Maritime Agency has devoted 50 plus years developing key partnerships with the leading logistics providers. We will handle your 3rd Party Logistics from pick up to packaging to surveying and making seaworthy. We can move your over dimensional products from point A to point B by any mode available. We offer an array of services including barge and tug hire, stevedoring, securing, surveying and much more. Our agents will also work with you to develop sound stowage plans and routing based on your needs.

Our ocean freight forwarding department offers an array of services ranging from full ocean vessel charters to FCL/LCL shipments. Our partnerships with ship owners and dockside services means we are able to communicate real-time information pertaining to your shipments. We have strategically placed brokers worldwide to ensure compliance with customs regulations and facilitate the transportation process. Our dedicated agents are available around the clock to communicate with you.

AIR FREIGHT

General Maritime Agency has a robust capability to handle all your air freight needs. Our air freight department is staffed with air logistics experts in order to address your specific needs. Our highly skilled agents are available 24/7 to expedite your emergency shipments. We treat your routine air shipments with priority as well. We move oilfield supplies globally with daily operations stretching across all production fields transcontinentally.

In addition, we offer a range of collateral air freight services including, but not limited to, world-wide warehousing, packaging and labeling, container stuffing or stripping, intermodal distribution services, and customs import and export. Our agents will discuss your goals and expectations so that we can determine the optimal plan to meet your needs.

DEEP WATER LOGISTICS

General Maritime Agency is the most trusted source of support for companies involved in offshore production and exploration. Our clients trust us to provide time sensitive transport, forwarding and customs clearance, services for the development, drilling, and operational phases of their projects.

We can handle packaging, warehousing, and shipping of specialized, over-dimensioned equipment including subsea components.

Our staff of highly trained vessel agents is completely mobile, proficient in handling your crew changes, lodging, transportation, and well-versed in customs and border protection policies.

In addition, our experts in offshore spares procurement are also proven freight expeditors who can handle shore-based management and regulated waste or debris disposal.

General Maritime Agency continues to support nearly all the leading offshore entities currently operating in the Gulf of Mexico. Our unique blend of services allows us to exceed client expectations.
